ABV-IIITM Gwalior 🔗

Secondry and Senior Secondry   Alirajpur
Jawahar Navodaya Vidyalaya

PROJECTS

Villa Vista 🔗
Full-stack web application
Designed website, enabling users to list, book, and manage favorite properties, ensuring a seamless and intuitive
experience.
- Utilized Prisma and MongoDB to architect a scalable and efficient backend for StayVue,
- Leveraged Next.js, TypeScript, and TailwindCSS for a feature-rich and responsive platform.

EasyDB 🔗
Full-stack web application
- User-Friendly: Converts manual data entry to SQL, managing entities, attributes, data types, and primary keys easily.
- Intuitive Interface: Allows users to run SQL queries, modify, and add data without SQL knowledge.
- Responsive Design: Fully responsive interface for seamless use on all devices.
- Advanced Tech: Built with TypeScript, JavaScript, CSS, and HTML.

SHOPPER 🔗
Front-end web application
- Diverse Collections: Shop for men, women, and kids with ease, featuring a responsive interface and simple navigation.
- Effortless Shopping: A user-friendly interface with login and add-to-cart functionality, developed using modern technologies like HTML, JavaScript, CSS, React, and Redux.

LANGUAGE AND FRAMEWORK

- C++
- Javascript
- HTML
- CSS
- Bootstrap
- Tailwind
- React.js
- Next.js
- Node.js
- MUI
- Express.js
- Redux

DATABASES

- MongoDB
- MySQL
- Firebase

POSITIONS AND RESPONSIBILITY

URJA Sports Fest: Effectively planned and managed various sporting competitions during the college's annual sports festival.

Contributed as an Organizer: Actively participated in the coordination and organization of Convocation 2023.

ACHIEVEMENT

- During Hacktoberfest 2022, I contributed to an open-source project. Enhanced interactivity and user experience through various front-end functionalities.Displayed strong problem-solving skills by identifying and fixing bugs.
